Located right at the base beside the village gondolas, the Longhorn saloon is a popular Après-ski venue by day and raucous party spot by night. Anyone who comes to Whistler will most likely end up here at some stage. The heated outdoor patio is one of the largest in town and definitely one of the most popular with its own outdoor bar. Quality bar food is served throughout the day including breakfast. Inside there is lots of room with two pool tables, a dance floor and multiple TV's for live sports. Dj's play nightly and occasionally live bands but be warned the music is loud and the crowd mostly young so if you are over 30 be prepared to feel old. The Sunday night locals party is the busiest night of the week at the Longhorn so expect long lines and lots of pretty girls getting in before you.

Watch out for special events at Longhorn including movie premiers or big name live acts especially during any festival in Whistler.
