Located right in the heart of Whistler village, Citta's is a bar, restaurant, patio and lounge wrapped into one venue. Firstly the name is pronounced "cheetah" so no need to let everyone know your a tourist by getting that wrong. Though many places in Whistler claim to be where the locals hang out, Citta's is definitely a Whistler favourite and at times it can seem as if everyone knows each other. The outside patio looking onto the square is usually pretty busy especially when they have live music outside in Summer time. Serves good pub food at reasonable price.

Open from 11am until 1am daily. Patio closes an hour earlier
